### Session 2022-2023

#### **International Poverty Eradication Day**

#### **Historical Perspective**

The International Day for the Eradication of Poverty has been observed since 17 October 1987. To honour the victims of extreme poverty, violence, and hunger over a hundred thousand people gathered at the Trocadero in Paris. The participants recognized poverty as a violation of human rights and affirmed the need for collaboration to ensure their protection. An inscription commemorating these convictions was unveiled on this day. Every October 17th, people of all faiths, backgrounds and origins have gathered to renew their commitment to the poor and show their solidarity with them. According to a report from the World Bank, the effects of the Covid-19 pandemic have caused between 88 and 115 million more individuals to fall below the poverty line, where they are facing difficulty arranging two square meals each day. The theme for this year's International Day for the Eradication of Poverty is '**Dignity for All in Practice'**.
